JARROW
FORMULAS™

Dr. Elizabeth Yetley, Ph.D.
F.D.A.
Office of Special Nutrition, HFS-450
200 "C" St., S.W.
Washington, DC 20204

Dear Dr. Yetley,

Please be advised that Jarrow Formulas Inc. is marketing a product containing a "Structure and Function" statement on the label. According to the notification requirements set forth by the DSHEA (Dietary Supplement Health and Education Act, 1994) legislation, please be advised of the following:

Name of Product: Water Soluble E

Active Ingredient: d-alpha tocopheryl polyethylene glycol succinate

Claim(s): This form of vitamin E has demonstrated improved absorption with increased stability (will not hydrolyze). This same material has been used in clinical investigations especially those involving patients with various fat malabsorption syndromes, particularly those prevalent in diabetes, liver disease, heavy alcohol consumption or other causes of poor fat absorption.

The following disclaimer appears on the label: This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

These claims are limited to, and a result of, what we believe to be a substantial body of scientific evidence supporting the functional role of these nutrients. A compendium of relative published research substantiating the above statement(s) is on file at the corporate office.

Respectfully,

Mark Olson, M.Sc.
Dir. of Research and Development
